# The property

Built with local stone and reclaimed wood, Chalet Dalila perfectly combines traditional charm with refined contemporary design. Spanning five levels, it offers warm, inviting interiors and generous outdoor areas, ideal for enjoying mountain sunsets or winter fun in the snow.

The main living area on the second floor features soaring double-height windows, a central fireplace, and a wide heated terrace with panoramic valley views and an outdoor fire, creating the perfect setting for cozy evenings or gatherings. The elegant dining space, bathed in natural light, leads to a mezzanine lounge where guests and children can unwind after a day on the slopes.

For ultimate relaxation, the chalet includes an indoor swimming pool with counterflow system, a Moroccan-style hammam, and a massage room. Each of the seven en-suite bedrooms features beautiful reclaimed wood, Vanoise stone, and can be arranged as twin or king beds for maximum comfort.
A ski room, spacious cloakroom, and covered parking for three cars complete this exceptional property, offering a true mountain retreat where sophistication meets alpine warmth.
