

Chalet Ellis

Courchevel, Alpes

14 Voyageurs • 6 chambres • 6 salles de bain

La propriété

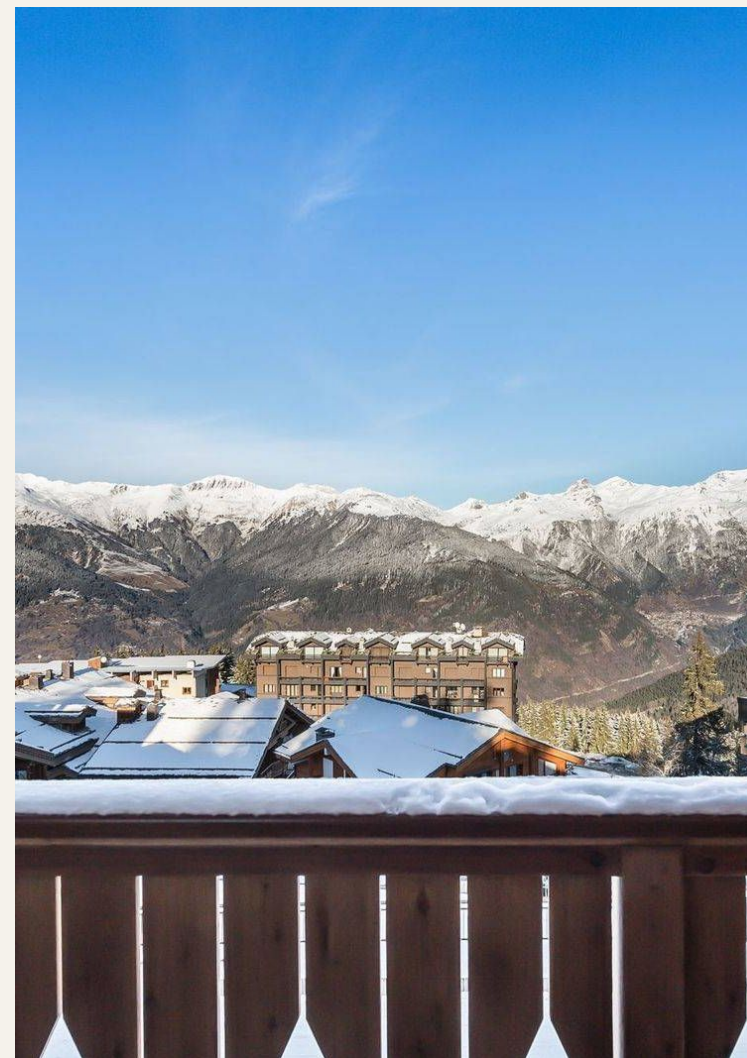

Designed by local architect Jean-Marc Mouchet, Chalet Ellis blends seamlessly into its surroundings and offers expansive contemporary living spaces, just steps from the slopes and the village centre.

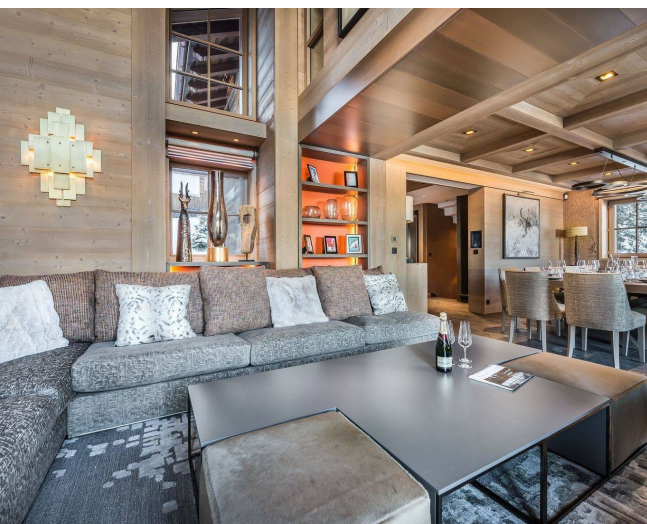

With 717 m² across five levels served by an elevator, it features six spacious en-suite bedrooms for 10 adults and 4 children, including a master suite as large as the main living area. Each bedroom is inspired by French perfume tones, adorned with elegant touches of gold, silver, white and beige.

The chalet's modern-alpine atmosphere showcases noble materials throughout: solid-wood floors, split-beam cladding, raw concrete accents, brass details, traditional wool fabrics and refined mixes of suede and wool.

A dedicated leisure floor includes a cinema room, bar and wine cellar. The luxurious spa features an indoor pool visible beneath a glass floor, along with a sauna, hammam, jacuzzi, massage room and fitness area. The top floor hosts the superb master suite, a serene retreat offering expansive volumes, panoramic views, natural materials, advanced technology, a vast dressing room and a luminous bathroom — the perfect finishing touch to this outstanding chalet.
